Madrid, March 28th, 2025. ITERCON, the CYCLUS Group's benchmark company in the design and construction of industrial projects, has appointed Alejandro Gallego as the company's new General Manager.

With more than 15 years of experience at national and international level, Gallego, who holds a degree in Civil Engineering from the University of Granada and a AMP® from the Instituto de Empresa, joined the company in 2022 to lead the Production sub-directorate general, after having held positions of high responsibility in national and international construction companies.

Previously, he was general manager of Rialsa, and previously held positions of responsibility in Ecisa and Harinsa Qatar, heading large-scale projects in Europe and the Middle East.

During this time at ITERCON, in addition to overseeing major projects for the company, he has experienced the great transformation that the company has undergone in recent years. He now assumes the general management with the aim of strengthening its position in the market and continuing with the excellence in the execution of projects for the main players in the industrial sectors. His experience will be key to consolidating ITERCON's growth, as well as entering new strategic sectors and being at the forefront of the construction of technological infrastructures.

"I am very proud to have the opportunity to lead ITERCON at such an important time for the company. My commitment is to continue driving excellence in each of our projects, promoting innovation and sustainability as fundamental pillars of our strategy", said Gallego after his appointment.

In addition, the company has appointed Luis Ortiz as the new Deputy General Manager, who until now held the position of Deputy General Manager in the Technical Office and Installations. Ortiz holds a degree in Architecture from the University of the Basque Country and has more than three decades of experience. His extensive knowledge of the sector will allow the company to strengthen its strategic positioning.

About ITERCON

ITERCON is the leading design and construction company in the industrial sector specialized in the development of integral projects. As a global operator for the industrial, data centers, logistics and civil works sectors, it has teams of experts in each of the fields that also offer the client a consulting service throughout the process. This guarantees the success in time and form in each of the projects.

With more than 65 years of experience, both in the public and private sectors, the company started its activity in the Valencian Community and quickly expanded throughout the national territory. After more than four decades working hand in hand with the most important clients in each country, the company made the leap to the international market and opened offices in different countries in Latin America and Europe. Currently, it has offices in Germany, Colombia, Spain, Portugal and Romania.
